

INSTRUCTIONS FOR HOME PROJECT

- You will find extra sheets in this packet if you choose to submit artwork other than what was done in school.
Siblings can also participate. Order as many sets as you wish.
- All artwork must be done on 8½ X 11 or 9 X 12 paper.
- A color background will produce a dramatic effect. If using white paper, it's best to color as much of the paper as possible. Students can also use color paper. Draw and color designs on white paper then cut-n-paste onto color paper or create a border. Use your wildest imagination. We suggest using crayons, markers or paint. Pencil is not recommended. Make sure artwork is dark enough for reproduction and nothing is too small. Outlining light objects with dark markers works well. Not all colors will reproduce exactly.
- All artwork must be horizontally positioned . This is the position of the template used.
- Please have artists put their name on the front of all artwork, so the recipient will recognize the artist.
- Main artwork should not be drawn to the edge of the paper. Anything within 1/8" edge of paper will be cut off. Be sure artists' name is at least 1/4 " away from any edges.
